What is this product?

Type

The Sub-fund is part of A4INVESTMENTS SICAV SIF fund. The Fund is an investment company established as a "société d'investissement à capital variable – fonds d'investissement spécialisé". This Fund is authorised and supervised in Luxembourg by the CSSF. The Depositary is Quintet Private Bank (Europe) S.A.

Term

The investment horizon is medium term and should be at least 3 years.

Objectives

The Sub-Fund aims at capital appreciation over the medium to long-term while controlling the risks related to the assets classes by investing mainly in a selected portfolio denominated in Euro of international equity and equity-linked instruments (including but not limited to ordinary or preferred shares, convertibles bonds), bonds and debt securities and instruments of all types (including but not limited to fixed-rate or floating securities, zero-coupon bonds and treasury bonds).

Exposure to equity, equity-linked instruments and Alternative Investment Funds ("AIFs")/UCITS will depend on the outlook of the financial markets and AIFM investment views (and may represent more than 50% of the net assets). The choice of investments will neither be limited by geographical area nor economic sector. However, depending on financial market conditions, a particular focus can be placed in a single country and/or in a single economic sector.

The Sub-Fund may achieve its investment objective indirectly, by investing through other AIFs/UCITS, including ETFs, ETCs and ETNs.
