What is this product?

Type

The Sub-fund is part of DIP fund. The Fund is an open-ended mutual investment fund. This Fund is authorised and supervised in Luxembourg by the CSSF. The Depositary is Quintet Private Bank (Europe) S.A.

Term

The investment horizon is medium term and should be at least 3 years.

Objectives

The Sub-Fund is actively managed. The Investment Objective of the Sub-Fund is to earn current income and seeks mid-term capital appreciation by investing mainly in fixed income and equity mainly issued in OECD countries.

The Sub-Fund is managed following a geographical as well as sectorial diversification, based on a value investing methodology combined with the disciplined decision-taking process typically used in the analysis of private equity assets.

The Sub-Fund is invested mainly in bonds (up to 100%, including but not limited to convertible bonds, fixed-rate or floating securities, zero-coupon bonds and treasury bonds, high yield bonds and as well as to CoCos (with a maximum exposure of 10% of the Sub-Fund's total net assets), money market instruments issued or dealt on the Eurozone and other international regulated markets, deposits and on ancillary basis in equities. Direct investment in equity securities will be limited to 30% of the Sub-Fund's total net assets. The high yield bond exposure (including not rated bonds) is limited to 70% of the Sub-Funds total net assets, however the exposure to high-yield bonds rated CCC+/Caa1 (distressed) and below will be limited to 10% of the Sub-Funds total net assets.

Intended retail investor

Reserved for eligible counterparty clients, as defined by MiFID, investing for their own account, other collective investment schemes with a minimum investment higher than 500,000 Euros, and distributors, platforms and other forms of intermediary who operate a fee based arrangement with their customers to provide independent advisory or discretionary portfolio management services, that excludes receiving any rebated fees from the Management Company.

What are the risks and what could I get in return?

Risk Indicator:

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance-Scenarios:

What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

Costs over Time	If you exit after 1 year	If you exit after 3 years
Total costs	102 EUR	334 EUR
Annual cost impact (*)	1.1 %	1.1 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.4 % before costs and 4.4 % after costs.

Composition of Costs

The table below shows the impact if you exit after 1 year.
