## What is this product?

### Type

The Sub-fund is part of INCOMETRIC FUND, organized under the laws of the Grand Duchy of Luxembourg as a mutual investment fund. This Fund is authorised and supervised in Luxembourg by the CSSF. The Depositary is Quintet Private Bank (Europe) S.A.

### Term

The investment horizon is medium term and should be at least 5 years.

### Objectives

The Sub-Fund is actively managed without any reference or constraints relative to a benchmark or index.

The investment objective of the Sub-Fund is to achieve growth by investing directly and indirectly in equities with the objective of generating positive average annual returns from global equities markets.

The strategy employs a combination of global macro, technical, fundamental and quantitative approach in order to identify investment opportunities on a country, sector, company levels mainly in large caps issued in OECD countries. The focus is primarily on the European and U.S. companies but also in emerging markets (with a maximum exposure of 25% of the Sub-Fund total net assets). The maximum exposure to Russia is limited to 10%, no investment in China is envisaged.

The investment objective of the Sub-Fund will be achieved through a granular investment in equities and UCIs/UCITS, including European exchange trade funds ("EU ETFs"). The investments through UCITS/UCIs will be limited up to 30% of the Sub-Fund total net assets.

### Intended retail investor

Reserved for retail investors denominated in EUR. The investment strategy corresponds for the investors with a high investment risk profile. Minimum Initial Investment: EUR 10,000.

## What are the risks and what could I get in return?

### Risk Indicator:

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

Costs over Time	If you exit after 1 year	If you exit after 5 years
Total costs	678.69 EUR	2,330.80 EUR
Annual cost impact (*)	6.79%	3.66%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.07 % before costs and 4.42 % after costs.

## Composition of Costs

The table below shows the impact if you exit after 1 year.

One-off costs upon entry or exit		
Entry costs	2,00% of the amount you pay in when entering this investment. This is the maximum amount you could pay and it could be less.	200.00 EUR
Exit costs	2,00% of your investment before it is paid out to you. This is the maximum amount you could pay and it could be less.	200.00 EUR
Ongoing costs (taken each year)		
Management fees and other administrative or operating costs	2,58% of the value of your investment per year.	258.50 EUR
Transaction costs	0,24% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	24.11 EUR
Incidental costs taken under specific conditions		
Performance fees	The benchmark used to calculate the performance of the Sub-Fund is MSCI World Index hedged in Euro over 12 months. Performance fee 15%. Please see prospectus for more details. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	0.00 EUR

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

This fund has no minimum holding period, but has been created for long term investment. You should therefore be prepared to remain invested with your investment for at least 5 years. However, you can return your investment on any bank business day in Luxembourg.
