## What is this product?

### Type

The Sub-fund is part of DIP fund. The Fund is an open-ended mutual investment fund. This Fund is authorised and supervised in Luxembourg by the CSSF. The Depositary is Quintet Private Bank (Europe) S.A.

### Term

The investment horizon is medium term and should be at least 5 years.

### Objectives

The Sub-Fund is actively managed without reference or restriction to an index or benchmark.

The investment objective of the Sub-Fund is to generate positive returns for its investors over the long term (over the investment cycle, at least 4-5 years) via capital appreciation and dividends, by investing in global equities.

The investment philosophy for the Sub-Fund is based on the belief that listed equity markets over time are efficient and reflect the underlying value of relevant assets, businesses and the quality of management teams. However, it is also true that in the short term this market efficiency is sometimes lacking, and the market is slow to reflect changes in specific catalysts, such as companies' investments and prospects as well as cycles. All these offer the Sub-Fund opportunities to generate superior risk adjusted returns for its investors over the investment cycle.

Therefore, the investment process focuses on the fundamental analysis of companies' assets and businesses, the assessment of the quality of management teams, the understanding of industries' cycles and trends and companies' relevant ESG considerations.

### Intended retail investor

Reserved for eligible counterparty clients, as defined by MiFID, investing for their own account, other collective investment schemes with a minimum investment higher than 1.000.000 Euros, and distributors, platforms and other forms of intermediary who operate a fee based arrangement with their customers to provide independent advisory or discretionary portfolio management services, that excludes receiving any rebated fees from the Management Company. The investment strategy corresponds to investors with a high-risk tolerance and high investment risk profile and looking for an investment term of five years.

## What are the risks and what could I get in return?

### Risk Indicator:

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between 31/03/2015 and 31/03/2016 (If you exit after 1 year), 31/07/2023 and 29/11/2024 (If you exit after 5 years).

Moderate scenario: This type of scenario occurred for an investment between 31/12/2014 and 31/12/2015 (If you exit after 1 year), 28/04/2017 and 29/04/2022 (If you exit after 5 years).

Favourable scenario: This type of scenario occurred for an investment between 31/03/2020 and 31/03/2021 (If you exit after 1 year), 31/05/2019 and 31/05/2024 (If you exit after 5 years).

## What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

Costs over Time	If you exit after 1 year	If you exit after 5 years
Total costs	209.95 EUR	1,598.69 EUR
Annual cost impact (*)	2.10%	2.10%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.13 % before costs and 10.03 % after costs.
