## What is this product?

### Type

The Sub-fund is part of INCOMETRIC FUND, organized under the laws of the Grand Duchy of Luxembourg as a mutual investment fund. This Fund is authorised and supervised in Luxembourg by the CSSF. The Depositary is Quintet Private Bank (Europe) S.A.

### Term

The investment horizon is medium term and should be at least 3 years.

### Objectives

The Sub-Fund follows the ethical endowment investment model. It is a management model that combines the characteristics of endowment management, with the benefits of ethical investment based on the social and moral principles of the Catholic Church. Endowment management constantly seeks to invest in long-term investments (companies or investments to be done by the Sub-Fund under the UCITs regulation) that generate value, without giving up the search for short-term profitability, especially through coupons and dividends, and including hedging strategies for tail risks. Hedging Strategies for tail risk, are implemented to cover movements of the markets that can affect more than 10% of the NAV. Quarterly, the investment manager may decide to use these tail risk strategies based on the macro environment and on market conditions. If used, these strategies may carry additional costs for investors, which could negatively impact the return of their investments.

Main hedging strategies for tail risk are the purchase of out of the money puts and calls. All calls and puts are bought in liquid and traded in regulated and public exchanges. The Investment Manager may use other type of instruments available and allow under UCITs regulation if they are better fitted to perform this hedging strategies.

The objective of the Fund is to provide shareholders with long term attractive total returns, investing across multiple markets and low correlated asset classes that provide a high degree of diversification, while assuming a medium risk profile.

### Intended retail investor

Reserved for institutional and retail investors denominated in EUR. Investment in this Sub-Fund is suitable for investors seeking a stable income with medium level of volatility and risk.

## What are the risks and what could I get in return?

### Risk Indicator:

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

Costs over Time	If you exit after 1 year	If you exit after 3 years
Total costs	245.22 EUR	688.73 EUR
Annual cost impact (*)	2.45%	2.12%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.04 % before costs and 2.91 % after costs.

## Composition of Costs

The table below shows the impact if you exit after 1 year.

One-off costs upon entry or exit		
Entry costs	We do not charge an entry fee.	0.00 EUR
Exit costs	0,50% of your investment before it is paid out to you. This is the maximum amount you could pay and it could be less.	50.00 EUR
Ongoing costs (taken each year)		
Management fees and other administrative or operating costs	1,57% of the value of your investment per year.	156.57 EUR
Transaction costs	0,06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	6.26 EUR
Incidental costs taken under specific conditions		
Performance fees	The performance fee is payable yearly as at the end of a performance period on 31 December of each year. The performance fee will be paid if the net asset value per unit as at the end of performance period exceeds the "High Watermark". Performance fee 10%. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	32.39 EUR

## How long should I hold it and can I take money out early?

### Recommended holding period: 3 years

This fund has no minimum holding period, but has been created for medium term investment. You should therefore be prepared to remain invested with your investment for at least 3 years. However, you can return your investment on any bank business day in Luxembourg.
