You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

The Sub-fund is part of A&G FLOTA fund. The Fund is organized in and under the laws of the Grand Duchy of Luxembourg as a mutual investment fund ("fonds commun de placement"). This Fund is authorised and supervised in Luxembourg by the CSSF.

Term

The investment horizon is medium term and should be at least 3 years.

Objectives

The Investment Objective of the Sub-Fund is to achieve mid-term capital appreciation. The Sub-Fund seeks to achieve sustained returns over time, applying an investment philosophy based on the fundamental analysis.

The Sub-Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Sub-Fund's portfolio, subject to the stated investment objectives and policy.

The Sub-Fund will be invested up to 100% in Fixed Income (including but not limited to: fixed-rate or floating securities, zero-coupon bonds and sovereign/government bonds). High yield bonds (incl. non-rated bonds) will be limited to maximum exposure of 30% of the sub-fund total net assets. However the exposure to high-yield bonds rated CCC+/Caa1 (distressed) and below will be limited to 5% of the Sub-Funds total net assets. The maximum exposure of high yield bond and non-rated bonds is limited to 30% of the sub-fund total net assets and the maximum exposure of CoCo bonds is limited to 10% of the sub-fund total net assets.

Additionally, the Sub-Fund may invest up to 50% of its net assets in listed equities and securities of any sector or market capitalization.

Intended retail investor

Reserved for retail and institutional investors denominated in EUR. The investment strategy corresponds for the investors with a high investment risk profile.

What are the risks and what could I get in return?

Risk Indicator:

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance-Scenarios:

Recommended holding period: 3 years Example Investment: 10,000 EUR		If you exit after 1 year	If you exit after 3 years
Stress scenario	What you might get back after costs	7,500.00 EUR	8,230.00 EUR
	Average return each year	-25.00 %	-6.29 %
Unfavourable scenario	What you might get back after costs	8,600.00 EUR	9,090.00 EUR
	Average return each year	-14.00 %	-3.13 %
Moderate scenario	What you might get back after costs	10,210.00 EUR	10,470.00 EUR
	Average return each year	2.10 %	1.54 %
Favourable scenario	What you might get back after costs	10,710.00 EUR	11,390.00 EUR
	Average return each year	7.10 %	4.43 %
Worst case scenario	You could lose some or all of your investment		

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between 31/12/2021 and 31/12/2022 (If you exit after 1 year), 30/10/2020 and 31/10/2023 (If you exit after 3 years).

Moderate scenario: This type of scenario occurred for an investment between 31/10/2019 and 30/10/2020 (If you exit after 1 year), 30/06/2015 and 29/06/2018 (If you exit after 3 years).

Favourable scenario: This type of scenario occurred for an investment between 31/12/2018 and 31/12/2019 (If you exit after 1 year), 31/12/2018 and 31/12/2021 (If you exit after 3 years).

What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

Costs over Time	If you exit after 1 year	If you exit after 3 years
Total costs	151.62 EUR	476.06 EUR
Annual cost impact (*)	1.52%	1.52%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.06 % before costs and 1.54 % after costs.

Composition of Costs

The table below shows the impact if you exit after 1 year.

One-off costs upon entry or exit

Entry costs	We do not charge an entry fee.	0.00 EUR
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0.00 EUR

Ongoing costs (taken each year)

Management fees and other administrative or operating costs	1,08% of the value of your investment per year.	107.83 EUR
Transaction costs	0,26% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	26.28 EUR

Incidental costs taken under specific conditions

Performance fees	The performance fee is payable annually, at the end of the performance period, on December 31st of each year. The Performance Fee will be paid if the net asset value per Share as at the end of performance period exceeds the "High Watermark". Performance fee 5% The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	17.52 EUR
