## What is this product?

### Type

The Sub-fund is part of DIP fund. The Fund is an open-ended mutual investment fund. This Fund is authorised and supervised in Luxembourg by the CSSF. The Depositary is Quintet Private Bank (Europe) S.A.

### Term

The investment horizon is medium term and should be at least 3 years.

### Objectives

The Sub-Fund is actively managed. The Sub-Fund's investment policy is based on managing a core global asset portfolio to deliver attractive returns independently of market conditions. To implement its investment policy, the Sub-Fund makes use of a wide array of complementary investment strategies, with different characteristics and drivers, including systematic and discretionary strategies. These strategies are built around three main complementary blocks of investments, namely: (1) global assets, that capture the upside returns of favorable markets; (2) protective alphas, that shelter the Sub-Fund during unfavorable markets; and (3) uncorrelated alphas, that enhance the Sub-Fund's returns irrespective of market conditions. The Sub-Fund invests, directly and indirectly, in bonds and equities globally and actively manages its currency exposures. The Investment Manager follows a clear and rigorous investment process.

The investments of the Sub-Fund in US and in European Union government bonds may reach up to 100% of its Net Asset Value subject to the requirements of Article 45 of the Law of 17 December 2010.

For general indication purposes the Sub-Fund will seek to invest on average over the very long term: 50% of its net assets in Equities and 50% in Fixed Income and money market instruments. Pursuant to the Sub-Fund's objectives of providing stable growth of capital and capital preservation, the Sub-Fund's allocations to Equity and Fixed Income and money market instruments are dynamic and will, at times, vary significantly from the long-term average levels.

### Intended retail investor

The Sub-Fund is suitable for investors seeking a combination of investment growth and stable return with a moderate level of volatility, who are interested in exposure to multiple asset classes and planning to invest for at least 3 years.

## What are the risks and what could I get in return?

### Risk Indicator:

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between 31/12/2021 and 30/12/2022 (If you exit after 1 year), 29/10/2021 and 31/10/2024 (If you exit after 3 years).

Moderate scenario: This type of scenario occurred for an investment between 28/06/2019 and 30/06/2020 (If you exit after 1 year), 31/10/2017 and 30/10/2020 (If you exit after 3 years).

Favourable scenario: This type of scenario occurred for an investment between 31/03/2020 and 31/03/2021 (If you exit after 1 year), 31/12/2018 and 31/12/2021 (If you exit after 3 years).

## What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

| Costs over Time        | If you exit after 1 year | If you exit after 3 years |
|------------------------|--------------------------|---------------------------|
| Total costs            | 90.03 EUR                | 293.81 EUR                |
| Annual cost impact (*) | 0.90%                    | 0.90%                     |

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.75 % before costs and 3.85 % after costs.

### Composition of Costs

The table below shows the impact if you exit after 1 year.

| One-off costs upon entry or exit                            |   |           |
|---|---|-----------|
| Entry costs   | We do not charge an entry fee.  | 0.00 EUR  |
| Exit costs  | We do not charge an exit fee for this product, but the person selling you the product may do so.  | 0.00 EUR  |
| Ongoing costs (taken each year)                             |   |           |
| Management fees and other administrative or operating costs | 0,76% of the value of your investment per year.   | 75.85 EUR |
| Transaction costs   | 0,14% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 14.18 EUR |
| Incidental costs taken under specific conditions            |   |           |
| Performance fees  | There is no performance fee for this product.   | 0.00 EUR  |

### How long should I hold it and can I take money out early?

#### Recommended holding period: 3 years

This fund has no minimum holding period, but has been created for medium term investment. You should therefore be prepared to remain invested with your investment for at least 3 years. However, you can return your investment on any bank business day in Luxembourg.
