What is this product?

Type

Term

The investment horizon is medium term and should be at least 5 years.

Objectives

The Sub-Fund is an actively managed fund of funds. The Sub-Fund seeks to achieve capital growth over the long term (at least five consecutive years).

The Sub-Fund will also allocate tactically to shorter-term investment opportunities on the basis of shorter-term thematic trends where such investments may provide attractive risk and return characteristics or demonstrate better relative performance in the short term.

It will seek to achieve its investment objective by obtaining exposure, in respect of at least 80% of its total assets, to global equities and equity-related securities, both indirectly, through investment in units of UCITS and UCIs, including iShares Exchange Traded Funds (iShares), managed by any affiliate of the BlackRock Group, and by investing directly in equity and equity-related securities and derivatives.

The Sub-Fund will not be subject to any geographic restrictions and may obtain indirect exposure to equities of companies located in developed markets and emerging markets globally. In practice the Sub-Fund may have a high allocation to particular countries or sectors at any one time. The Sub-Investment-Manager has discretion to select the portfolio's investments and is not constrained by any benchmark in this process.

The Sub-Investment Manager will use MSCI All Country World Index (Net Total Return, Euro Unhedged) for the purpose of risk monitoring, and performance comparison.

Intended retail investor

Reserved to retail and institutional investors. This Sub-Fund is addressed to investors who seek capital growth with diversified exposure to global equity markets while accepting the level of risk and volatility associated with the reference market. Minimum Subscription: 1.000 EUR.
