What is this product?

Type
The Sub-fund is part of INCOMETRIC FUND, organized under the laws of the Grand Duchy of Luxembourg as a mutual investment fund. This Fund is authorised and supervised in Luxembourg by the CSSF. The Depositary is Quintet Private Bank (Europe) S.A.

Term
The investment horizon is medium term and should be at least 3 years.

Objectives
The Sub-Fund is actively managed.
The investment objective of the Sub-Fund is to achieve long-term capital appreciation by investing in global equities with a geographical as well as sectorial diversification.
The Sub-Fund seeks to accomplish this objective through investing primarily in global large caps issued in OECD countries. The focus is mainly on European and U.S. companies but also in emerging markets (with a maximum exposure of 20% of the Sub-Fund total net assets). The aggregate exposure to Russian or Chinese equities (through listings in developed markets (e.g. ADRs in the US) is limited to 10% and no domestic investments are targeted.

The investment objective of the Sub-Fund will be achieved through a granular investment in equities. On an ancillary basis, the Sub-Fund may make investment in cash equivalents such as money market instruments (including government bonds (EU or US) or treasury bills).

For hedging purposes, the Sub-Fund may use financial derivative instruments products traded on a regulated market and/or over the counter (OTC), provided they are contracted with first class financial institutions specialized in this type of transactions. In particular, the Sub-Fund may take exposure through financial derivative instruments and forwards on any eligible underlying, such as currencies, interest rates, transferable securities or financial indices, at all times in compliance with the Grand Ducal Regulation.
For treasury purposes the Sub-Fund may also invest in liquid instruments according to the criteria of article 41(1) of the 2010 Law such as (but not limited to) money market instruments, money market funds, and bank deposits.

Intended retail investor
Reserved for institutional investors and other investors having entered into a discretionary mandate or fee based advisory mandate with financial intermediaries which, according to regulatory requirements or based on individual fee arrangements, may not accept and keep trail commissions and denominated in Euro.

What are the risks and what could I get in return?

Risk Indicator:

1	2	3	4	5	6	7

Lower risk ← → Higher risk
The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.
This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

Costs over Time	If you exit after 1 year	If you exit after 3 years
Total costs	183 EUR	667 EUR
Annual cost impact (*)	1.9 %	1.9 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.1 % before costs and 9.3 % after costs.
