What is this product?

Type

The Sub-fund is part of A&G FLOTA fund. The Fund is organized in and under the laws of the Grand Duchy of Luxembourg as a mutual investment fund ("fonds commun de placement"). This Fund is authorised and supervised in Luxembourg by the CSSF. The Depositary is Quintet Private Bank (Europe) S.A.

Term

The investment horizon is medium term and should be at least 5 years.

Objectives

This Sub-Fund is actively managed. The Investment Objective of the Sub-Fund is to achieve mid-term capital appreciation. The Sub-Fund seeks to accomplish this objective through investing primarily – directly or indirectly through UCIs/UCITS including ETFs - in equity and fixed income mainly issued in OECD countries. The Sub-Fund is managed following a geographical as well as sectorial diversification, based on combination of global and value-based selection approach with a multi-asset allocation strategy, unrelated to benchmark constraints. The Sub-Fund is invested – directly or indirectly through UCIs/UCITS including ETFs - in equities up to 100%. The maximum emerging market exposure in equities will be 50% of the Sub-Fund total net assets.

The Sub-Fund may also invest up to 50% of its total net assets in Fixed Income assets (including but not limited to: fixed-rate or floating securities, zero-coupon bonds and sovereign/government bonds) with a maximum exposure in emerging Fixed Income assets of 10% of the Sub-Fund total net assets.

The Sub-Fund is invested also in:

- High yield bond with maximum exposure of: 40% of the Sub-Fund total net assets,
- Non-rated bonds with maximum exposure of: 10% of the Sub-Fund total net assets
- CoCo bonds with maximum exposure of: 20% of the Sub-Fund total net assets
- In aggregate maximum exposure of high yield bond, non-rated bonds and CoCo bonds, limit of 50%, of the Sub-Fund total net assets).

Intended retail investor

Reserved for retail and institutional investors denominated in EUR. The investment strategy corresponds for the investors with a high investment risk profile.

What are the risks and what could I get in return?

Risk Indicator:

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

Costs over Time	If you exit after 1 year	If you exit after 5 years
Total costs	163 EUR	1,021 EUR
Annual cost impact (*)	1.7 %	1.7 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.6 % before costs and 5.0 % after costs.
