What is this product?

Type

The Sub-fund is part of LATINA fund, a Luxembourg Undertaking for Collective Investment in Transferable Securities, qualifying as an investment company with variable capital, incorporated under the form of a public limited liability company. The Depositary is BANCO INVERISIS, S.A.

Term

The investment horizon is medium term and should be at least 5 years.

Objectives

The portfolio is actively managed without reference to a benchmark. The Sub-Fund will only invest in emerging markets through ADR's. The Sub-Fund may invest up to a maximum of 10% of its net assets in American Depositary Receipts (ADRs). The Sub-Fund will not invest in Fixed Income instruments. The sub-fund will invest in funds up to 30%, included funds using alternative strategies such as PTR funds, as well as UCITS and ETFs. The sub-fund may invest in MMIs, deposits and Money Market Funds up to 50%. The Sub-Fund may also invest up to 5% of its NAV in structured products.

The Sub-Fund may hold ancillary liquid assets limited to bank deposits at sight with a maximum of 20% of the net assets of the Sub-Fund in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets provided under article 41(1) of the Law of 2010 or for a period of time strictly necessary in case of unfavorable market conditions. Ancillary liquid assets do not include bank deposits, money market instruments and other instruments that meet the criteria of article 41(1) of the 2010 Law.

What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

Costs over Time	If you exit after 1 year	If you exit after 5 years
Total costs	1,013 EUR	1,972 EUR
Annual cost impact (*)	10.2 %	2.6 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 13.0 % before costs and 10.4 % after costs.

Composition of Costs

The table below shows the impact if you exit after 1 year.
