## What is this product?

### Type

The Sub-fund is part of INCOMETRIC FUND, organized under the laws of the Grand Duchy of Luxembourg as a mutual investment fund. This Fund is authorised and supervised in Luxembourg by the CSSF. The Depository is Quintet Private Bank (Europe) S.A.

### Term

The investment horizon is medium term and should be at least 3 years.

### Objectives

Its primary objective is to achieve a high or stable return, while preserving capital.

The investment process is made of the combination of strategies including credit strategy founded on the usage of bonds issued by sovereign entities and the private sector, an arbitrage strategy aimed at seeking the relative value on various bond asset classes and an interest rate curve strategy aiming to exploit the variations of the spreads between long-term rates and short-term rates.

The Sub-Fund will not invest over 20% of its Total Net Assets in Contingent Convertible Bonds.

The Sub-Fund may have a significant High Yield exposure, though the unrated bond exposure will be limited to 10% of the Sub-Fund's net asset value. In addition, bonds from non-OECD issuers will be limited to 25%.

The Sub-Fund will invest across various markets and geographies, but currency exchange risk will be limited to 30% of the Sub-Fund.

On an ancillary basis, the Sub-Fund will invest indirectly in MBS, ABS, and high quality investment trade rated CLOs.

The Sub-Fund may trade all types of derivatives for both investment & hedging purposes, including but not restricted to futures, options, swaps, CDS on indices, and CDS.

The Sub-Fund may invest in money market instruments.

### Intended retail investor

Clean class, denominated in GBP. Reserved for investors receiving discretionary portfolio management services from the Investment Manager. Minimal initial investment: GBP 50.000

## What are the risks and what could I get in return?

### Risk Indicator:

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance-Scenarios:

Recommended holding period: 3 years Example Investment: 10,000 GBP		If you exit after 1 year	If you exit after 3 years
<b>Stress scenario</b>	<b>What you might get back after costs</b>	7,760 GBP	7,770 GBP
	Average return each year	-22.4 %	-8.1 %
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	9,220 GBP	8,960 GBP
	Average return each year	-7.8 %	-3.6 %
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	10,060 GBP	9,810 GBP
	Average return each year	0.6 %	-0.7 %
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	11,370 GBP	11,480 GBP
	Average return each year	13.7 %	4.8 %
<b>Worst case scenario</b>	<b>You could lose some or all of your investment</b>		

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between December 2020 and December 2021 (If you exit after 1 year), July 2019 and July 2022 (If you exit after 3 years).

Moderate scenario: This type of scenario occurred for an investment between September 2023 and September 2024 (If you exit after 1 year), December 2019 and December 2022 (If you exit after 3 years).

Favourable scenario: This type of scenario occurred for an investment between May 2016 and May 2017 (If you exit after 1 year), May 2016 and May 2019 (If you exit after 3 years).

## What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 GBP

Costs over Time	If you exit after 1 year	If you exit after 3 years
Total costs	74 GBP	218 GBP
Annual cost impact (*)	0.8 %	0.8 %

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.1 % before costs and -0.7 % after costs.

## Composition of Costs

The table below shows the impact if you exit after 1 year.

One-off costs upon entry or exit		
Entry costs	We do not charge an entry fee.	0 GBP
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 GBP
Ongoing costs (taken each year)		
Management fees and other administrative or operating costs	0.3 % of the value of your investment per year.	30 GBP
Transaction costs	0.4 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	43 GBP
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 GBP

## How long should I hold it and can I take money out early?

### Recommended holding period: 3 years

This fund has no minimum holding period, but has been created for medium term investment. You should therefore be prepared to remain invested with your investment for at least 3 years. However, you can return your investment on any bank business day in Luxembourg.
